Marmon IEI Cable for Battery Energy Storage Systems

I am with Marmon IEI, a Berkshire Hathaway company, focusing on high-performance safety cables for data centers. <https://marmoniei.com/products/> I'd like to see if our Exane or other products would have an application for facilities such as the Compass Energy Storage Project at San Juan Capistrano. I'd appreciate any guidance or an introduction to the appropriate point of contact at Fluence.

Thank you,
Kevin Kelleher
