Darden Clean Energy Project Endorsement

Subject: Endorsement of the Darden Clean Energy Project

Dear CEC Commissioners and Staff

As the Business Manager of the International Brotherhood of Electrical Workers, IBEW Local 100, I am proud to endorse Intersect Power's Darden Clean Energy Project. This infrastructure project holds immense potential to drive job creation and economic growth on the westside and in broader Fresno County.

We support the proposed Project, as discussed in the draft Environmental Impact Report (EIR), and believe that all impacts, as described, would be sufficiently mitigated by the Mitigation Measures included in the EIR.

The Darden Clean Energy Project promises to inject vitality into our local economy by generating employment opportunities and stimulating economic activity. With its implementation, we anticipate a surge in job opportunities and an expansion of the tax base, providing much-needed resources for public services and infrastructure development.

We believe that supporting projects like the Darden Project is crucial for the prosperity of our community and the advancement of our workforce. Therefore, we urge you to prioritize its approval and implementation.

Thank you for your attention to this matter. Please do not hesitate to contact us for further information or assistance.

Sincerely,

Ronny Jungk
Business Manager/ Financial Secretary
IBEW Local 100
