Wind mills

To spend anymore more tax dollars on windmills is atrocious in my eyes, without saying they are the biggest eye sore ever. Wildlife is effected of course. Huge issue is when I do travel and I counter hundreds of these mega power makers, they are not in operation, in fact I'm just guessing 50 percent are inoperable. The money it cost to maintain them.

I have a hard time with the mindset of politicians to build more of the ugliest and waste of earths surface. China is the only real winner here, I understand they sell them.
