Re: SVY03A Data Center Campus — Mitigated Negative Declaration (MND)

Dear Renee Longman:

Thank you for including the California Department of Transportation (Caltrans) in the environmental review process for the SVY03A Data Center Campus Project. The Local Development Review (LDR) Program reviews land use projects and plans to ensure consistency with our mission and state planning priorities. The following comments are based on our review of the March 2025 MND.

Please note this correspondence does not indicate an official position or approval by Caltrans on this project and is for informational purposes only.

Project Understanding

The proposed project would include a new three-story data center building; a security building; backup generators to support the data center building; an on-site project substation, a Pacific Gas and Electric Company switching station, and an on-site transmission line. The project is located near State Route (SR) 92.

Travel Demand Analysis

The project vehicle miles traveled (VMT) analysis and significance determination are undertaken in a manner consistent with the City's adopted Traffic Impact Analysis Guidelines. Per the MND, this project is found to have a less than significant VMT impact.

Construction-Related Impacts

Project work that requires movement of oversized or excessive load vehicles on State roadways requires a transportation permit that is issued by Caltrans. To apply, please

Renee Longman, Senior Environmental Planner

visit Caltrans Transportation Permits ([link](#)). Prior to construction, coordination may be required with Caltrans to develop a Transportation Management Plan (TMP) to reduce construction traffic impacts to the State Transportation Network (STN).

Thank you again for including Caltrans in the environmental review process. Should you have any questions regarding this letter, please contact Llisel Ayon, Associate Transportation Planner, via LDR-D4@dot.ca.gov. For future early coordination opportunities or project referrals, please visit Caltrans LDR website ([link](#)) or contact LDR-D4@dot.ca.gov.

Sincerely,
