Jordi Burbano City of Los Angeles, Department of Water and Power 111 North Hope Street, Room 1246 Los Angeles, CA 90012

Dear Jordi Burbano:

As required by Senate Bill 350 (De León, Chapter 547, Statutes of 2015) (SB 350) (in the Public Utilities Code (PUC) Section 9622) the California Energy Commission (CEC) has reviewed the Los Angeles Department of Water and Power (LADWP) Integrated Resource Plan (IRP) filing, which was received on February 23, 2024. The CEC informed LADWP that the IRP filing was complete on October 11, 2024, pursuant to Chapter 3, Section B.1 of the *Publicly Owned Utilities' Integrated Resource Plan Guidelines* (*POU IRP Guidelines*).¹

Based on a detailed review and analysis of the IRP, standardized tables, and other supporting information, I determined, as documented in the *Review of Los Angeles Department of Water and Power 2023 Integrated Resource Plan* (April 2025), that LADWP's 2023 IRP is consistent with the requirements of PUC Section 9621, and meets California's energy and other policy goals, including:

- Achieving greenhouse gas emission reduction targets commensurate with the electricity sector's percentage of economy wide reductions of 40 percent from 1990 levels by 2030.
- Meeting the Renewables Portfolio Standard of 50 percent by 2030, based on SB 350, and 60 percent by 2030 based on SB 100.
- Ensuring planning goals related to retail rates, reliability, transmission and distribution systems.
- Considering the role of renewable resources, grid efficiencies, energy storage, and distributed resources in meeting peak demand.
- Addressing procurement of energy efficiency and demand response, energy storage, transportation electrification, and portfolio diversification.

The Review of Los Angeles Department of Water and Power's 2023 Integrated Resource Plan, available in Docket No 18-IRP-01, provides the details of the

¹ See: <u>Publicly Owned Utility Integrated Resource Plans (IRPs)</u>, http://www.energy.ca.gov/sb350/IRPs/index.html.

CEC's review and findings regarding the consistency of LADWP's IRP with PUC Section 9621. The CEC anticipates considering adoption of this determination at the CEC Business Meeting in July 2025.

If you have any questions regarding this determination, please contact Bryan Neff at Bryan.Neff@energy.ca.gov.

Sincerely,

Drew Bohan Executive Director California Energy Commission
