## **Please don't put this monstrosity in OC's historic town**

Hello,

Pretty please, with a cherry on top, don't built this thing here. Surely you could find a less charming, culturally rich, and densely populated area to build it. I'm worried about the safety and environmental risks because my father became seriously ill for several days after being near a fire at a facility like this in the Bay Area. He wasn't even super close to it. He was a few miles away from the fire for only a few hours and yet his lungs are still struggling months after the fact.

My family and I love spending our weekends in SJC because my husband grew up in the area. I actually enjoy hanging out with my in-laws there. Please don't take that away from me.

Keep SJC safe. Preserve its history. It's easily one of the best parts of Orange County. PLEASE.

Thank you.
