## **Opposition to Location of Bess Facility**

I was unfamiliar with the Orange County Business Council (OCBC) although they appear to be legitimate and have been in existence for a long time. I was shocked to see their support for this project. It was a clever endorsement wrapped in the need for updated and critical infrastructure enhancements. Not many people disagree with that here in San Juan or Laguna Nigel. What we do disagree with is the LOCATION of this facility. An overwhelming number of residents have voiced their legitimate safety concerns about this location on this very platform. For the OCBC to endorse this facility without acknowledging the main concern, location safety, is insulting to the citizens and businesses of this community. I hope that the CEC sees through this obvious misdirection and that the appropriate parties investigate the motivation for such a reckless endorsement by the OCBC.
