Opposition to Proposed Compass Energy Storage Project (24-OPT-02)

This project does NOT belong in a populated community near homes, schools and businesses. It presents an existential threat to the entire community as these facilities are known to be extremely flammable and prone to thermal runaway. Amplifying the issue is this area is a high-fire danger area to begin withâ€¦ the project would be at the base of a highly flame able, dry hill.

Itâ€™s ridiculous itâ€™s even in consideration.

I live in very close proximity to this proposed project, at the top of the hill, and am terrified at the idea. It would put my life, my familyâ€™s lives, and the entire community at horrible risk.

Put this in an industrial area FAR AWAY FROM HOMES AND SCHOOLS!

Sincerely

Lisa Padgalska
