## **Opposition to Proposed Compass Energy Storage Project San Juan Capistrano, CA**

I strongly oppose the proposed battery energy storage system (BESS) facility along the northern portion of the City of San Juan Capistrano, CA. This project further heightens the potential fire risk to the surrounding communities. With home owner's insurance already at a premium in our State and as residents continue to be dropped from their policies, we don't need one more check in the "negative" column to aid insurance companies to further increase our premiums or drop us entirely leaving us without options. Long term human health risks associated with such a plant have not been fully investigated and the quality of human life should not be dismissed.
