Application for Certification of the)	COMMITTEE ORDER ESTABLISHING
Sacramento Cogeneration Authority's)	SCHEDULE FOR PREHEARING
Procter & Gamble Cogeneration)	PHASE OF PROCEEDING
Project)	(Title 20, CCR § 1709.7(c))
_____)	

At the Committee's December 14, 1993, Informational Presentation in the above-captioned matter, the Applicant submitted a proposed schedule showing three alternative timelines for processing the Application for Certification. The three alternatives include an expedited version that would take less than ten months; a joint schedule stipulated by Applicant and Commission Staff that would take eleven months; and a typical twelve-month schedule.

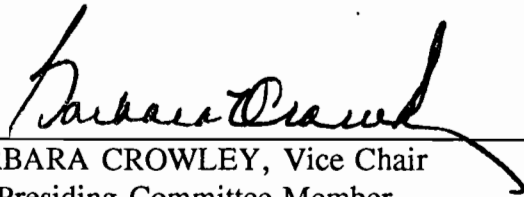

The Committee has reviewed the proposed schedule and believes that the timeline parameters of the joint schedule are reasonable given the parties' expectations that the project is not expected to raise controversial issues. However, since the proposed schedule is based upon "performance," we are aware that unforeseen circumstances may affect schedule deadlines. Therefore, flexibility is built into the schedule to allow for an expedited process or for a more lengthy process if delays occur. Accordingly, we do not believe it necessary to assign specific dates to any of the milestones because unanticipated events may require date modifications. With this caveat, the following Committee Schedule reflects the timelines proposed by the parties and encourages the expeditious processing of the Application.

COMMITTEE SCHEDULE
