

DOCKETED

Docket Number:	09-AFC-07C
Project Title:	Palen Solar Power Project - Compliance
TN #:	200029
Document Title:	Figure 17-PSH LLC's Final Sand Transport Study
Description:	N/A
Filer:	Tiffani Winter
Organization:	Marie Fleming, Applicant's Counsel
Submitter Role:	Applicant's Representative
Submission Date:	7/23/2013 6:24:59 PM
Docketed Date:	7/23/2013

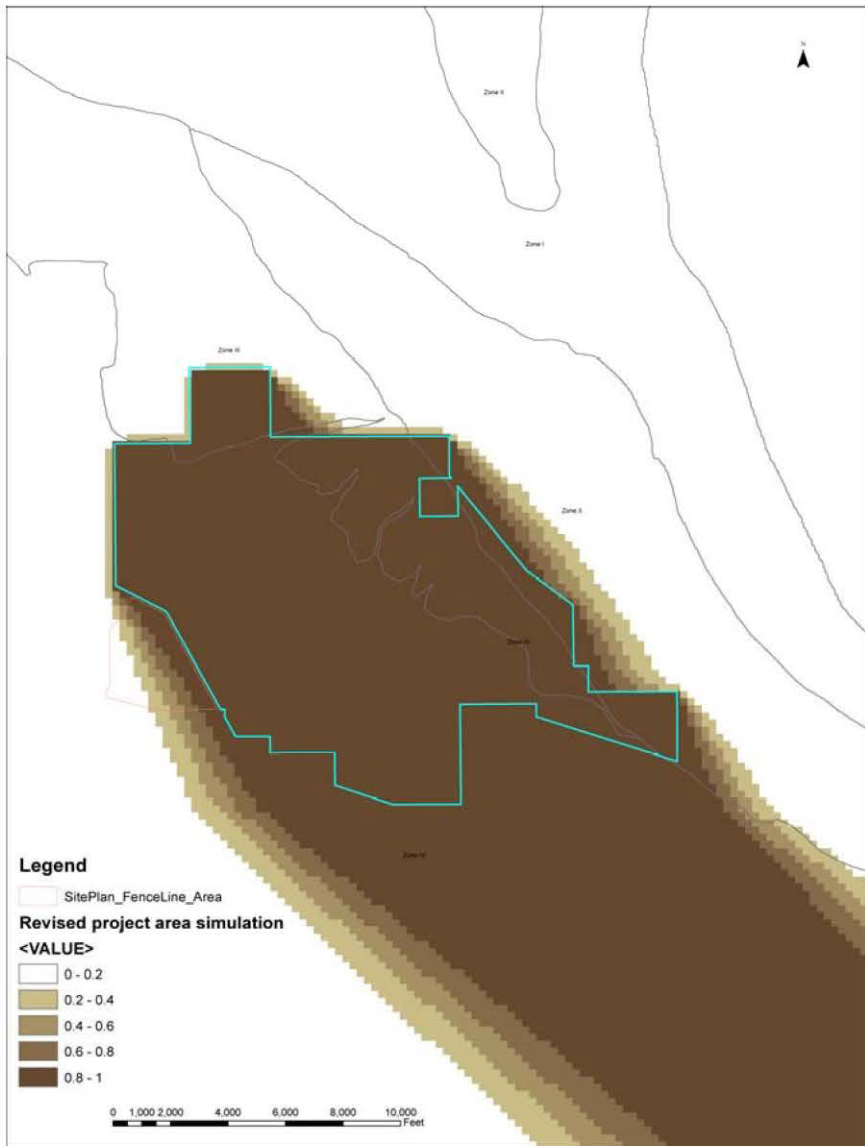

Figure 17. Preliminary diagram from Lancaster (2013), showing distribution of estimated impacts on sand transport and erosion related to the revised PSEGS facility. Although difficult to see in this diagram, CSC Zones II and III are shown with their special relationships to the PSEGS perimeter. The distribution of impacts is very similar to that subjectively estimated for this report, with the exception that Lancaster's calculation of areas of maximum impact (darkest colors) outside the perimeter fence in Zones II and III is somewhat larger. Note that most impact outside the perimeter lies to the southwest of the proposed facility in Zone IV, well beyond potential MFTL habitat.
