Subject: Permit Applications for the Palen Solar Electric Generation Project, located at Corn Spring Road, Desert Center, CA 92239 (Facility ID# 174021)

Dear Mr. Turlinski:

The South Coast Air Quality Management District (SCAQMD) received permit applications for the Palen Solar Electric Generation Station Energy Project on April 4, 2013. Based on our review of the initial application package it was determined that additional information was required in order to deem the applications complete. The SCAQMD issued a letter dated April 26, 2013 requesting additional information. With the submittal of the requested additional information received on June 14, 2013, two Selective Catalytic Reduction system applications received on June 21, 2013 and email correspondence on July 10, 2013 indicating you have decided to opt-into the RECLAM program, the SCAQMD has determined that the application package is now complete. The reference application numbers for this project and our initial review determination are provided in the table below:
