## **opposition to the issuance of an operating permit for a new power plant in Redondo Beach**

Hello Ms. Kelly,

Please accept this message in opposition to the issuance of an operating permit for a new power plant in Redondo Beach. I am a 10 year resident, and live just east of the plant site, on Emerald St. I have grave concerns for the air quality in the vicinity near the plant. There was a time when the use of that site for power generation may have been compatible with the population density in the area, but that time has come and gone. Please help us by recognizing that such a planned use is much better suited in the myriad, less densely populated, non- residential alternatives throughout the state, and refuse to issue a new permit. Thank you for your consideration.

Very Truly Yours,

John
