No new AESPower Plant

In national choices of a near perfect place to live, Redondo Beach, wins out so it is amazing when my out of town visitors enter the city by passing through an arch proudly displaying our town and then a muddle of wires and a huge ugly not hardly used ancient power plant. It has been proven, NOT NEEDED, we have wonderful power grids to take care of all the areas we include in our city and also outlying territories. Please use your heads, NO NEW POWER PLANTS in what could be a perfectly beautiful town.
