SUPPORT for Repowering AES Plant, Redondo Beach

Ms. Kelly,

I wanted to write and let you know that as a citizen of California and Redondo Beach, I am very concerned that we maintain / repower ANY plants necessary to support the uninterrupted regular supply and emergency backup supply of electrical power in our state and region.

One hallmark of a third world country is unreliable provision of electricity. I DO NOT want to see that happen here!

If repowering this plant will ensure stronger possibility of continued service, regular or emergency, my husband and I completely support it.

Removing power-generating and delivering capability because of NIMBY environmentalism is not good public policy.

I hope and trust that if repowering is needed, you will recommend and support, in fact, insist, that it happen.

Thank you very much for your attention!

Lisa Falk (and Martin Falk)
