AES Redondo Beach Modernization Project

I am strongly in support of the AES project. My wife and I have lived in Redondo Beach since 1965. Our home is less than a half a mile from the Power Plant. California needs all the energy capability that our power plants can produce. Older 800 sq. feet homes in Redondo are being replaced by 4000 sq. feet homes that use more energy. Edison recently installed a transformer on the power pole near my home because of the increased power draw of these larger homes. A power plant has been on the AES site for more than 100 years. Now the johnny come lately Condo owners want to get rid of the plant.

Sincerely, Robert Kittell, Janey Kittell 525 s. Helberta ave. Redondo Beach 90277
