Re: Petition for Amendment – To Upgrade the Advanced Gas Path Technology of the Combustion Turbine and To Conform Air Quality (AQ) Conditions of Certification with the San Diego Air Pollution Control District - Permit to Operate (SDAPCD-PTO)- San Diego Gas & Electric (SDG&E)- Palomar Energy Center (01-AFC-24)

Dear Mr. Rundquist:

As we discussed during our September 05, 2013 phone meeting, SDG&E would like to separate the two amendments in the petition referenced above. The amendments in this petition propose 1) an upgrade to the gas path technology of the existing turbines and 2) an amendment to the AQ conditions that would align them with the current SDAPCD-PTO. Approving this request will allow SDG&E and CEC Staff to complete the alignment of AQ conditions and ensure a coherent order between the AQ conditions and the SDAPCD-PTO. It will also provide SDG&E time to assess the turbine upgrade by reviewing current industrial technologies available for the modification. Once the assessment is complete, SDG&E can send CEC Staff additional technical specifications on the proposed upgrade for review and approval.

If you have any questions regarding this information, please feel free to contact me at (760) 432-2506; email [jdobbs@semprautilities.com](mailto:jdobbs@semprautilities.com) .

Thank you,

Jason T. Dobbs
