Docket Number: 12-AFC-03

I Oppose a New AES Power Plant on the Redondo Beach Oceanfront

It makes no sense to have fossil fuel power plants where they will pollute directly into the community. While once it was true that they needed to be on the shore to use once-through cooling, that cease to be the case. A power plant in Redondo blights, suppresses economic values of real property, and keeps many more good-paying jobs from coming into existence where instead, merely machines, and few personnel will be located on the power plant.

I urge you to vote against a new power plant.

Zein E. Obagi, Jr.
