## **Stop New AES Redondo Power Plant**

Patricia,

I understand you want to hear from residents in the Redondo beach area that oppose a new power plant. Please add my name to that list. I live under a half mile from the power plant and am very concerned for my kids health. We encourage them to live an active lifestyle and to play outdoors...I fear that a new power plant that has lower "stacks" and increases its production will dramatically increase the dangerous Particulate Matter. All of their schools are also within 1 mile of the power plant so I know that the proximity and exposure is damaging their health. When the power plant runs today, I can see the increase in "white residue" on my cars, furniture and windows. I am scare to know what it is doing to my kids, friends and family that live in the local area. I am sure you have seen the studies and data on the subject so I assume you get the point (if not, please let me know and I will provide valid, unbiased sources).

Please let me know if you need anything else from me as a resident of Redondo Beach.

Thanks,

Scott Kaplan
