No Rebuilding of Power Plant in the Middle of a Residential Area

Hi Patricia,

Thank you for receiving comments on the AES Powerplant rebuild.

As a resident within a mile of the plant, please understand residents do not want it rebuilt. When it was built, it was likely a much less populated area. Residences have expanded to all sides of it. It's a different, congested community and powerplants have no business being in the middle of a residential area.

The AES is a detriment to the surrounding residents (my family included) for health, vitality, view, and environmental purposes.

Thanks again for listening to local citizens!
