Docket Number: 12-AFC-03

Please deny AES Redondo's application

In consideration of the thousands of school children up the hill and directly downwind of this plant's emissions, please deny this application. This plant has hardly run for years and all the state data shows this plant is NOT needed for grid reliability today and in the future. Please do the responsible thing and read the state's data, the City of Redondo Beach's independent analysis and listen to our elected leaders. Please retire this unneeded plant. Do not favor corporate profit over the health of this community. A needs analysis will confirm this plant is not needed and I urge the CEC to do the right thing and make sure this plant is absolutely needed before renewing their license. Thank you
