I Support a New Power Plant in Redondo Beach

I live at 124 Sapphire Street, Redondo Beach, CA 90277.

I support the demolition of the existing plan and the construction of a new, state of the art plant in Redondo Beach, for the following reasons:

We need electricity. Without it we would be living in the dark, figuratively and factually.

It is too important to our way of life. It supports almost all that we do, in some way or another.

To get rid of a source of electricity in our own back yard is absolutely crazy and makes no sense whatsoever to any thinking, reasoning person. Those who are concerned about esthetics instead of electricity should just go without electricity for a week or two - maybe they would wake up.
