HECA PROJECT - PSA/DEIS WRITTEN COMMENTS

Additional submitted attachment is included below.

HECA Project –
PSA/DEIS written comments

PUBLIC PSA/DEIS COMMENT FORM

Must be received on or before October 1, 2013
(Please print clearly)

To Whom It May Concern,

Please do NOT permit the HECA plant to be built in the Buttonwillow area. Water use, air pollution (I don't "buy" the offsets as equal to additional traffic, smokestack emissions, coal dust), traffic congestion, devastation to farming and farming communities, fertilizer production and finally, the small amount of energy produced. I know the idea of carbon sequestration is attractive but not here - move it elsewhere. I support unions and the need for jobs (but I sometimes wonder if they'd build gas chambers if it meant jobs :))! Please note I emailed a similar concerned note but am not sure it went through. I have been to five meetings on this subject and my opposition has just grown stronger.
