HECA PROJECT - PSA/DEIS WRITTEN COMMENTS

Additional submitted attachment is included below.

**HECA Project –
PSA/DEIS written comments**

PUBLIC PSA/DEIS COMMENT FORM

Must be received on or before October 1, 2013
(Please print clearly)

I have observed that the only people indicating that they are in favor of the HECA fertilizer plant being built near Tupman are those who expect to profit either from its construction or its operation. Surely there are better ways to bring employment to the Kern County area than by adding more pollutants to air that has been proven to be the worst in the nation. It is ridiculous in my opinion that such an experiment as the HECA plant was ever proposed for the Kern County location. Perhaps as one of my friends has suggested we are considered expendable since we have the nation's worst air.
