I gave you the best estimate I could do myself over the weekend. If you guys calculated it than that is the number you ought to use. This is exactly why I did not want to file a PD so quickly with no support.

Scott,

Staff is getting a different number for the total length of the tortoise exclusion fencing along I-10 than what was provided in your write up. Our cartography group gets 4.7 miles between undercrossing 10 and 13 as shown on the attached map. This is approximately 9.4 miles of total fencing on both sides of the highway. Can you tell me how you got your 3 mile estimate (6 mile total estimate) for me?

Thanks
