Opposed to AES renewal ~ WHO cites lung cancer

Dear Ms. Kelly,

My adult son now has lung cancer and had his first lung surgery this month. He is due for a second one in a few weeks. We live in South Redondo Beach less than a mile from the AES plant and are both very opposed to its renewal. Please consider those of us living so close to the power plant that we not only have to hear it but we breathe its toxic particles. We are across the street from the high school and those students also are exposed to it as well. There is no excuse for this kind of health hazard in our community when we all know that the plant is not needed. Please don't renew the power plant for another fifty years!

Carol

We have the right to know what's in our food and flowers. Label GMOs.
