Re: Huntington Beach Energy Project (CEC 12-AFC-02)

Dear All:

I am writing on behalf of the Laborers International Union of North America, Local Union 652 and its members living in Orange County ("LiUNA"), regarding the Huntington Beach Energy Project (CEC 12-AFC-02), including all actions referring or related to the development of a natural gas-fired 939 megawatt (MW) electrical generating facility which will replace the existing and operating AES Huntington Beach Generating Station located at 21730 Newland Street in Huntington Beach, just north of the intersection of Pacific Coast Highway and Newland Street. (collectively, "Project"). LiUNA will not be participating in the review and public comments on the Project. You may remove us from the notice list for this Project. This letter supersedes any prior correspondence or communication concerning the Project. Thank you.

Sincerely,

A handwritten signature in blue ink, appearing to read "Richard Drury", is written over a light blue circular stamp. The signature is fluid and cursive, extending to the right and slightly downwards.

Richard Drury
