DECLARATION OF DAVID HARPER

I, David Harper, declare as follows:

1. I am a member of the Columbia River Indian Tribes and a Mohave Tribal Elder. I have personal knowledge of the facts stated herein. If called as a witness, I could and would competently testify to the matter stated herein.

2. I am providing testimony on the matter of the Genesis Solar Project which is proposed in an area just a few miles from the Colorado River Indian reservation. These areas that have been part of our people since, as we say, time immemorial.

3. Spiritual cultural values are based on beliefs. The metates are significant because the metates represent the woman in the tribe. The metates represent that woman were ever present and that they kept the people together. Women kept the tribe from starving and sustained us in the harsh lands. Women had foresight; they knew the harvest and the land terrain, what to cook, and what was available.

4. In the past, these tools, the metates, were very important. You could not eat or drink beverages without this tool. It was almost like a stove in these days and times. Without this tool there was no mesquite bean to grind or no way to make and store our food.

5. These items are sacred to our people. To harm these items would harm and disrupt the spirit of which this item was placed, in a sacred ceremony for the dead. It is the same as a grave robber or someone who would disrupt a grave in a graveyard. These items are not found in any of our areas anymore, and are held sacred.

6. I always remember the story of when you see the metate stones left in the desert. These are like monuments left in the desert; sometimes they are grave markers of people who had died. If you look under the metate, you will most likely find that this is a cremation site. Sometimes two metates can mean this person was wealthy or that more than one person was cremated.

7. These metates are living testimony that we were here, that our people lived in these areas, and were cremated and put away not to be disturbed.

1 8. Not everyone can come and bother these stones, they are sacred and part of  
2 the dead. We have people in clans that have a duty to protect and care for these items,  
3 which are very sacred and powerful.

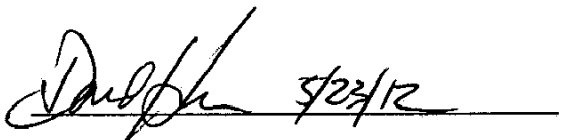

4 9. Touching the metate can make you have nightmares and dream ungodly  
5 things. When you touch the dead, it can also cause harm to your family, especially the  
6 young, sickly or elderly. Those, who are not able to protect themselves, are not strong  
7 enough to hold off the strong medicine. That's why we say, leave these things alone.  
8 There is a spirit attached that will cause harm, especially if you are not chosen to care for  
9 these items.

10 10. Our people are our most precious resource, alive and dead. The dead  
11 represent the legacy of our beginning. How we survive today was through their hard life  
12 of discovery and a testimony to what works. We are all here because of the blood that  
13 was shed on these lands. These are my ancestors; they left their mark that we were here.

14 11. We live in a day and time where people are intruding on our very way of  
15 life, destroying our medicine, unburying our people and looking to erase our existence  
16 after we been here forever.

17 I declare under penalty of perjury under the laws of the United States of America  
18 that the foregoing is true and correct.

19 Executed May 23, 2012 at Parker, Arizona.
