DOCKETED	
Docket Number:	12-AFC-03
Project Title:	Redondo Beach Energy Project
TN #:	201198
Document Title:	Memorandum Regarding Applicant's Notice of Additional Time Needed to Respond to Staff Data Requests Set 1
Description:	Data Requests 8, 9, 10, 13, and 20-23
Filer:	Alicia Campos
Organization:	California Energy Commission
Submitter Role:	Commission Staff
Submission Date:	11/14/2013 11:58:13 AM
Docketed Date:	11/14/2013

Memorandum

Date: November 14, 2013
Telephone: (916) 654-4063
File: 12-AFC-03

To: Commissioner Karen Douglas, Presiding Member Commissioner Janea A. Scott, Associate Member

Susan Cochran, Hearing Officer

From: California Energy Commission Patricia Kelly, Siting Project Manager

1516 Ninth Street Siting, Transmission and Environmental Protection Division

Sacramento, CA 95814-5512

Subject: REDONDO BEACH ENERGY PROJECT APPLICANT'S NOTICE OF ADDITIONAL TIME NEEDED TO RESPOND TO STAFF DATA REQUESTS SET 1, DATA REQUESTS 8, 9, 10, 13, and 20-23.

Staff has reviewed the applicant's filing dated November 4, 2013, in regard to the Applicant's Request for Time Extension.

In that filing, the applicant requested additional time for responses to Data Requests 8,9,10, and 13 for the air quality modeling that would simulate: the potential worse-case emissions resulting from simultaneous operation of units 5-8 and auxiliary boiler 17 and demolition of units 1-4 of the Redondo Beach Generating Station; air quality modeling for annual impacts during the commissioning phase and subsequent operation of the Redondo Beach Energy Project; and cumulative modeling and impact analysis for existing and planned cumulative sources located within six miles of the project site. Staff has no objection to the extension of time for Data Requests 8, 9, 10 and 13. A response to Data Requests 13 will be provided within six weeks after Staff has approved the Applicant's proposed list of sources.

Due to the complexity of the modeling, Staff has no objection to the extension of time for Data Requests 20, 21, 22, and 23 relating to the existing baseline total nitrogen deposition rate and potential changes to the nitrogen deposition rate due to operation of the project. Staff understands that responses to these data requests will be provided on or before December 6, 2013.
