Subject: Cumulative analysis for other pollutants - El Segundo

Mr. Hill and Mr. Andrews,

I've been reviewing the data responses for El Segundo. I noticed that the supplemental response to Data Request 56 (TN #200666, dated 9/23/2013) provided cumulative modeling for federal 1-hour NO₂ standard according to PSD requirements. For CEQA purposes, staff needs cumulative modeling analysis for all the criteria pollutants. Please provide cumulative analysis for state NO₂ standards and state and federal standards for other criteria pollutants for which modeling is normally conducted (i.e. PM10, PM2.5, CO, and SO₂).

Thanks.

Wenjun Qian, Ph.D., P.E.
