## **Heca Permit**

I am writing to let you know of my strong opposition to permits being issued for the HECA facility close to Buttonwillow.

I live in Kern county, and my big concern is how the facility will affect our air quality, which is only very slowly getting better. That being said, the air quality in this valley is of terrible quality, which everyone knows and we are paying fines for being out of compliance with federal standards. Allowing this facility to be built and operate will dramatically reduce the air quality, through the diesel fumes from the trucks, the dust cause by the trucks and the coal being transported, as well as the plant's burning of coal.

Sincerely,  
Cydney Henderson  
Bakersfield, 93301
