Power Plant

To Whom It May Concern.....most of us anywhere in the South Bay categorically do not want a new plant in the area. The sudden loud unannounced noises are not acceptable, and frightening. The power lines are ugly, noisy and dangerous, and leave dozens of dead bees on the roof and steps of our town house. And the constant black soot on window ledges if we dare to leave a window open, as well as on pathways and every available surface, has to be a health hazard.

The plant needs to leave town, and should not be allowed to return in any shape or form.
