## **Oppose AES Rebuilding New Powerplant**

We have been Redondo Beach residents for 14 years. We oppose the rebuilding of the power plant for several reasons.

1). The power plant new and current pollutes our beach air. Adults and children come to Redondo Beach so they can enjoy the clean beach air and lifestyle. The power plant is right next to the beach and is contrary to this lifestyle and the pollution affects all of our healths .

2). This power plant has been here for decades . We the residents who live and work here want the right to affect change for the next generation. The power plant was built when Redondo was a much smaller city and less urban. Today, that had changed. With technology advances, do we really need to put a power plant dense dense and active beach community ?

3). The power plant affects the quality of our lives by reducing our property values and makes Redondo less desirable overall.

The community feels that there are better uses for the land where the power plant resides that would benefit the residents and business owners of this city.

Thanks for your consideration.
