## **Repowering of AES Redondo Beach**

I understand that the last CEC meeting in Redondo Beach turned into a mess.

I wanted you to know that my husband and I, and at least two more owners in our group of five townhomes, SUPPORT the repowering of the plant.

We think the reduced footprint and modernization will be an asset to the area and state in years to come.

RELIABLE electrical power is a hallmark of a first world country. California is doing many things wrong - let's keep our electricity as something that is going right!

The vocal minority of NIMBYs try to run this city into the ground. The silent majority LIKES our electricity and good corporate neighbor!

Thank you for reading.
