Re: El Segundo Energy Center Petition to Amend (00-AFC-014)
Resubmittal of Confidential Cultural Resources Data to Supplement
Response to Data Request 78

Dear Mr. Oglesby and Ms. Stora:

El Segundo Energy Center LLC ("**ESEC LLC**") filed an Application for Confidential Designation of Cultural Resources Records on September 13, 2013, in response to California Energy Commission (the "**CEC**") Data Request Nos. 68 – 82 related to ESEC LLC's Petition to Amend the El Segundo Energy Center (00-AFC-14C) project (the "**Project**"). The CEC granted ESEC LLC's request pursuant to that certain CEC Response to Application for Designation of Cultural Resources Records in Response to Data Request Nos. 68 – 82, dated and docketed on October 2, 2013, as CEC TN # 200743 (the "**Confidential Designation**"). On March 5, 2014, ESEC LLC filed with the CEC, as TN # 201834, confidential data to supplement ESEC LLC's September 2013 response to Data Request No. 78 (the "**Confidential Information**"). The Confidential Information was contained on two (2) compact disks that our office hand-delivered to the CEC. We were recently notified by the CEC that it is unable to locate these disks. Consequently, we hereby re-submit two (2) additional compact disks containing identical Confidential Information, and respectfully request that the CEC carefully preserve the confidential nature of this data.

Pursuant to the Confidential Designation, any "subsequent submittals related to cultural resources can be deemed confidential" without the need for a new application for confidential designation under California Code of Regulations, Title 20, section 2505, if ESEC LLC files a certification under penalty of perjury that the new information is substantially similar to the information granted confidentiality by the Confidential Designation.

As we previously noted, the Confidential Information pertains to cultural resources records located at and in the vicinity of the Project site and is substantially similar to the

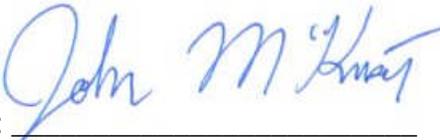

information granted confidentiality by the Confidential Designation, therefore, the Confidential Information should be deemed confidential as well, and handled accordingly.

ESEC LLC's consultant has not disclosed the enclosed, confidential, cultural resources information to anyone other than its employees, affiliate employees, consultants, and attorneys assisting ESEC LLC with efforts related to the Project. Furthermore, ESEC LLC has not released any of the information contained in the compact disk to any member of the general public, and has prohibited its employees, affiliate employees, consultants and attorneys from releasing to the public any portion of that information at any time.

I certify under penalty of perjury that the information contained in this letter is true, correct, and complete to the best of my knowledge, and that the enclosed Confidential Information is substantially similar to the information granted confidentiality by the CEC's Confidential Designation. As an attorney for ESEC LLC, I am authorized to make the above certification and to submit this letter on behalf of ESEC LLC.

Dated: March 28, 2014
