Dear Ms. Stora,

The U.S. Fish and Wildlife Service has reviewed the information docketed by the California Energy Commission subsequent to the January 7, 2014, Presiding Member's Proposed Decision Conference on the Palen project. We submit to you that the supplemental documents provided by Palen Solar Holdings do not constitute substantive new information. We plan to attend the April 16 biological resources workshop and can follow up with written correspondence at that time.

Thank you,

—

Jody Fraser, Biologist
