Sacramento, CA 95814-5512

**Subject:** HYDROGEN ENERGY CALIFORNIA AMENDED AFC (08-AFC-8A)  
STAFF STATUS REPORT NUMBER 13

On January 27, 2014, the Committee overseeing the Hydrogen Energy California (HECA) Amended AFC issued a Revised Committee Scheduling Order requesting all parties to file status reports by April 7, 2014. Staff presents this status report identifying project progress since staff's previous status report in compliance with the Revised Committee Scheduling Order.

Staff continues to evaluate public, agency, and intervenor comments as well as information submitted by the applicant. No significant documents have been filed by the applicant since staff's last status report.

Applicant discussions continue with Occidental of Elk Hills regarding the latter's continued participation in the project. Occidental's Board of Directors has authorized Occidental California to become a separately traded company that will announce its management team in the third quarter 2014, which could impact the project schedule.
