Docket Number: 11-AFC-03

Deny

I am a concerned citizen who is opposed to the Quail Brush Generation Project 11-AFC-03 in the East Elliott Planning Area. Please deny this suspension. Furthermore, I respectfully request that the application be vacated.

A fossil fuel power plant right next to Mission Trails Regional Park is completely inappropriate as it is an ecologically sensitive area. The proposed project is located within the East Elliott Multi Habitat Planning Area, part of San Diego's Multi Species Conservation Program (MSCP) open space area. The Mission Trails Regional Park Task Force opposes the siting of the power plant.

Please end the 11-AFC-03 process and focus on truly progressive projects, such as rooftop solar, in appropriate places, to generate energy.

San Diego is a perfect spot to develop more solar power. Why even consider a fossil-fuel power plant? We are too smart to do something like this. Please deny the application once and for all.
