Deny Cogentrix Quail Brush Generation Project

Dear Commissioners,

Save Mission Trails is writing because the Quail Brush Energy project has raised its ugly head again. Clearly this awful travesty is completely without merit. We urge the California Public Utilities Commission to consider all the contrary evidence to its construction that has been raised by the good people of San Diego, Santee and San Diego County. Please listen to their voices and please do as they ask and deny this request for additional extension. It has no place in the future of Mission Trails Regional Park or the people of San Diego and Santee.
