Quail Brush Power Plant

Please vacate The Cogentrix company's request for a 2nd one-year suspension on the Quail Brush peaker power plant. It would sit in a basin that would collect smoke stack discharges, is right next to schools, homes, and San Diego's largest open space park, isn't supported by any government entity or public group in San Diego, and continues to show a complete disregard for the wishes of the people who would be most affected by its construction. Please be a responsible public agency in representing the interests of the people of San Diego and deny this out-of-state corporation their opportunity to make profits at our expense for an unnecessary power plant. Thank you for listening!
