new ideas vs ingnoring us

I have read the local news website about a new energy facility. As far as I can tell, legislatures are enthusiastic about their own plans but ignore what Kern County voters have said. We have made efforts to clean up the air. Now you want a coal burning plant? It's not wise. We have asked for more water for our farmers. Now you want to use the water for something else. You don't care about the valley. I have a hard time trusting you.
