## **Pollution or solution**

I can not believe that with the worst air quality in the U.S. that we would even be considered for this project. We have so many children in Kern County with asthma and breathing problems and it is scary to think that we will be doing more to pollute the air. I also do not understand where the water will come from to be able to make this plant function. I hope that everyone in this area was made aware of the plans for this plant. I can not imagine anyone wanting to live in the area close to this!
