**Please stop the Quail Brush power plant once and for all**

I respectfully ask that you stop any further consideration of the Quail Brush power plant here in San Diego east county. This area contains a large population in the immediate vicinity of the proposed site, as well as significant recreational areas, but also already suffers from air pollution from nearby San Diego proper. With the option to build out solar energy, which should be a logical choice given our climate, a natural gas-powered generating plant is simply the wrong choice.

Thank you for your consideration.

Jan Charvat
