Subject: STATUS REPORT #30 FOR THE SUN VALLEY ENERGY PROJECT (05-AFC-03)

Dear Mr. Winstead,

Pursuant to the terms of the Commission's Order Extending Suspension of Proceeding dated June 11, 2013, Valle Del Sol Energy, LLC submits Status Report #30 for the Sun Valley Energy Project. The Sun Valley Energy Project (SVEP) is a 500-megawatt natural gas-fired peaker plant that will be located in the City of Menifee, California. The 20 acre site occupies a portion of five parcels totaling approximately 37 acres of land owned by Valle Del Sol Energy, LLC situated 30 yards southwest of Southern California Edison's Valley Substation. The project will feature five General Electric LMS-100 gas turbines.

As previously noted, in October of 2013, NRG Energy, Inc. and NRG Energy Holdings Inc. (a wholly owned subsidiary of NRG Energy, Inc.) entered into an asset purchase agreement with Edison Mission Energy (EME) which provided for the acquisition of substantially all of the assets of EME, including Valle Del Sol Energy, LLC, by NRG Energy Holdings Inc., upon Bankruptcy Court confirmation and consummation of an EME Chapter 11 plan of reorganization. The sale transaction closed on April 01, 2014. The SVEP will remain under Valle Del Sol Energy, LLC ownership and we will be submitting a letter to the Commission requesting an extension to our suspension.

If you have any questions, comments, or concerns, please do not hesitate to contact me at (626) 968-0360.

Sincerely,

Heather MacLeod
Valle Del Sol Energy, LLC
