Meeting Location:

NAME: Bill Kanemoto

DATE: 05/05/2014

TIME:

WITH: William Kanemoto & Associates

TECHNICAL AREA: Visual Resources

SUBJECT: Key Observation Point 5

On about May 5, staff telephoned Bill Kanemoto of William Kanemoto and Associates to request an e-mail or other written communication with his calculation of the correct reproduction size for the project applicant's photographs and visual simulations for KOP 5, which were known to have been produced at a reduced scale to print on 8½ x 11 paper (i.e., the images submitted to staff had not been produced at life-size scale). On May 9, Mr. Kanemoto provided a memorandum with the requested calculation (TN #202331). Mr. Kanemoto's company has expertise in computer visualization and 3D modeling that was anticipated to be needed on the HBEP project, and a contract was executed in 2013 with Aspen Environmental Group to secure his services.
