1516 Ninth Street  
Sacramento CA 95814-5512

Subject: Response to Request from Basin and Range Watch to Change Scheduling Order in PSEGS Amendment Proceedings (09-AFC-07C)

We are sorry for any inconvenience that the current schedule may cause to you or any party. The Committee does its best to manage the schedule in a way that is fair to all of the parties and the public. We will be using the WebEx teleconferencing system that will allow remote participation by you and any expert witnesses you intend to call. If you are unable to teleconference using WebEx, you may consider asking another Intervenor to sponsor evidence into the record for you. Of course, you will still be welcome to file briefs in the case even if you are unable to attend the evidentiary hearing.

As to the choice of location for the hearing in Blythe instead of Palm Desert, the record indicates that the largest block of public participation came from Native Americans from the Blythe area. We chose the location in an attempt to facilitate the greatest amount of public participation.
