**Cc:** tlee@StarWestGen.com; Ogata, Jeffery@Energy; Douglas, Joseph@Energy; Marshall, Paul@Energy  
**Subject:** RE: GWF Henrietta

Thank you for the update Mary.

We also need to request an amendment to the Henrietta license to address restrictions that have been placed on water usage by the water purveyor for the project. In essence we are restricted in our ability to use water for landscape irrigation due to the current drought conditions. I am copying Paul Marshall here since he is tracking drought related issues generally, and we have had some specific discussions related to the GWF projects specifically. I hate to "pile on" but it seems to make sense to have all of these issues addressed at the same time, so my inclination is to go ahead and file this additional request now, unless you think there is a better approach. The relevant condition related to landscape irrigation is the same in both the simple cycle license and the combined cycle license.

Let me know if you have any questions.

Regards, Mike.

**Subject:** RE: GWF Henrietta

Mike:

I am the CPM handling the motions for all three as Joe's schedule is loaded with other projects. The items that will be on the consent calendar at the June 18, 2014 Business Meeting are the Notification of Change in Operator for Hanford, Henrietta, and GWF Tracy. Staff is currently reviewing both Henrietta and Hanford with regards to the "Motions for Revocation", as well as the peaker license extension for Hanford. These motions will not be ready to be heard at the June Business meeting. I'm not sure yet which meeting it will go to, but it will definitely be later than that. I will keep you posted when I get a better idea of which meeting we will go to with these items and I will definitely let you know if we need any additional information.

Thanks,  
Mary

**Subject:** GWF Henrietta

Hello Joe.

I am following up on our March 24, 2014, motion requesting revocation of the amended license and reinstatement of the original license for the GWF Henrietta Peaker Project. In that motion, we also requested that the staff hold off on processing the request contained in our April 16, 2013, Revised Petition to Amend the license for the project to install a reverse osmosis treatment system as a primary water treatment system to augment the existing treatment system and to modify the wastewater disposal method. I understand that it is staff's preference that we withdraw the Revised Petition to Amend and refile when we are ready to proceed with the reverse osmosis system, as opposed to leaving that portion of the Revised Petition to Amend pending. That approach is fine, and we hereby withdraw the Revised Petition to Amend filed on April 16, 2013.

I understand from Jeff Ogata that with this clarification provided, staff intends to place the March 24, 2014 motion on the Commission agenda for May or June. Please let me know if my understanding is incorrect, or if you need any further information from us.

Regards, Mike
