**NOTICE OF RECEIPT
PETITION TO AMEND
THE CALIFORNIA ENERGY COMMISSION DECISION FOR THE
OTAY MESA ENERGY CENTER (99-AFC-5C)**

On May 29, 2014, Otay Mesa Energy Center, L.L.C., filed a petition with the California Energy Commission (Energy Commission) requesting to amend the Final Decision for the Otay Mesa Energy Center (Otay Mesa). The combined-cycle, natural gas-fired, electricity-generating, 510-megawatt facility was certified by the Energy Commission in its Decision on April 23, 2001, and began commercial operation on October 3, 2009. The facility is located in the Otay Mesa area in western San Diego County, California.

DESCRIPTION OF PROPOSED MODIFICATION

The modifications proposed in the petition would amend the Energy Commission Air Quality Conditions of Certification to reflect the conditions currently in Otay Mesa's Title V Permit and Permit to Operate. The changes will allow Otay Mesa to continue to comply with all applicable laws, ordinances, regulations, and standards (LORS) and will not result in any significant adverse effects on the environment.

The petition would also remove all construction and commissioning air quality conditions, since Otay Mesa is in operation, and any air quality conditions pertaining to the auxiliary boiler on site, since the boiler is no longer in use.
