Re: Huntington Beach Energy Project (12-AFC-02)

My wife and I live at 21382 Estepa Circle, Huntington Beach, CA. We have reviewed the exhaustive Final Staff Assessment prepared by Felicia Miller and the staff of the Energy Commission.

As nearby residents to the existing Huntington Beach Generating Station, we are writing to offer our continuing support for the transition of the existing AES facility to the type described in the Huntington Beach Energy Project. We also commend the Energy Commission staff for their thorough review and analysis as documented.

We are retired and have no professional connection to AES or any involved governmental or community organization. We believe AES has been a good and thoughtful neighbor and they have earned our trust. They certainly meet an important existing need. We appreciate that they help supply energy cheaply and efficiently, and that it nearly always is available.
