# CEC 2012 IEPR Update:

## Important Attributes for California's Energy Future

- Development of a variety of technologies
  - Creates attribute-based, diversified portfolio to minimize risks and realize co-benefits
- Consider value of and procure resources with expanded benefits suite, e.g.,
  - Integration benefits
  - Transmission and distribution cost minimization
  - Provision of reliability services
  - Technology diversity

PSEGS mitigates integration challenges by delivering a firmer, more reliable renewable power source

PSEGS promotes broader integration and higher penetration of renewable resources
